Dear Valued Patient,

We are writing with very exciting news! You now have access to a full coverage dental plan through your dentist office! Our plan offers both individual and family dental care at a discounted rate for you and your family.

We believe in ensuring our patients have access to quality and affordable dental care. We also know that regular dental care is essential to your health and that typical dental coverage through an employer is not always affordable or easy to utilize. Therefore, we have established a discount plan to allow our patients ongoing, consistent and easy to access dental care at your current dentist office.

Our Plan provides discounts between 30-100% on preventative and specialty dental services. Enrollment in the plan occurs annually, is very simple, and only takes a one-time yearly payment. The one-time annual payment covers preventative care at 100% and gives you 30-35% discounts on treatment including, fillings, crowns, root canals, implants and night-guards.

Our Plan is available to all patients who do not currently have active dental insurance and has options for both individuals and families. Preventative treatment is covered at 100% with enrollment!
